

Carmine Galati

Carmine Galati, of Galati Yacht Sales, began his involvement in the marine industry working for the Galati family business in his youth. He took on his first management role at Galati Yacht Sales in 1980.

Carmine's passion has always been to educate and elevate the marine industry and to consistently improve the customer experience from the initiation of a sale to the servicing and maintenance of vessels. As such, Carmine has been a strong supporter of professional development for all positions and all facets of the industry—sales, business office personnel, service technicians and crew members. He is an advocate of educational initiatives such as the YBI (Yacht Broker Institute), the CPYB (Certified Professional Yacht Broker) program and continues to push for the sharing of best practices that are used in the marine industry today.

As an avid angler and supporter of the tournament circuit, Carmine received his most cherished award as the 44th Masters Angling Tournament Champion. He enjoys sharing his love of the water and fishing with others by promoting the safe enjoyment of the water through the "Go Boating" initiative and is currently serving on the Board of Directors as the Chairman for the 2021 Masters Angling Tournament.

Between 2005 and 2008, Carmine served two consecutive terms on the Board of Directors of the IYBA/FYBA and again from 2018-2020. It was during this time that Carmine felt he was most connected and best able to serve the industry as a whole.
